

Consolidated Annual Report Required by Senate Bill 30, 75th Legislature

Section 22.0251, Texas Human Resources Code: Timely Determination of Overpayments

Statutory Provision

The statute requires the Health and Human Services (HHS) Office of Inspector General (OIG) to determine and record the time it takes the agency to establish an overpayment claim in the Supplemental Nutrition Assistance Program (SNAP) or the program of financial assistance; to set goals for increased timeliness; and to adopt a schedule to meet those goals. The statute also requires the agency to submit an annual report to the Governor and Legislative Budget Board detailing the progress in reaching these goals.

Background

One of the keys to recovering improperly received benefits is to determine overpayments in a timely manner. When the agency receives a referral regarding a potential overpayment of benefits, investigators with the OIG's Benefits Program Integrity (BPI) division analyze the case to verify whether an overpayment occurred and, if so, the amount of the overpayment. The investigator also determines whether the case involves an intent to commit fraud. If not, the investigator notifies the recipient of their obligation to repay and their right to due process under the law. If probable cause exists that a felony-grade violation has occurred, the investigator may refer the case to the appropriate local district attorney's office for criminal prosecution. If the circumstances warrant a lower-grade offense, the investigator will pursue the case through an administrative hearing.

Accomplishments

As a measure of timeliness, the BPI division adopted the federal requirement that investigators complete at least 90% of cases within 180 days from the

date of referral. This standard is one metric used to measure the investigator's performance. As required by the United States Department of Agriculture (USDA), BPI calculates timeliness from the date the agency receives the referral.

From September 1, 2018, through August 31, 2019, investigators completed 8,952 investigations, including both fraud and non-fraud overpayment claims. Of the 8952 cases, 6,890 were completed within 180 days, a timely completion rate of 77%. This is largely attributed to turnover that caused a backlog of cases in the Houston area. BPI has diverted resources from other geographic areas to help address the backlog and will continue to work to address the issue.

Benefits Program Integrity Timeliness			
Time frame	Investigations Completed	Investigations Completed within 180 Days	Percent Timely
09/2009 - 02/2010	16,118	14,675	91.05%

Section 531.108, Texas Government Code: Data Matching Efforts from HHSC with Information from Neighboring States and Texas Department of Criminal Justice

Statutory Provision

This statute requires OIG to submit an annual report to the Governor and the Legislative Budget Board regarding the computerized (data) matching of agency information from neighboring states and information from the Texas Department of Criminal Justice (TDCJ).

Background

Under this provision, OIG identifies individuals receiving benefits in another state and identifies incarcerated individuals illegally receiving public assistance benefits.

Accomplishments

Since August 2010, HHSC OIG has participated in the Public Assistance Reporting Information System (PARIS) interstate compact on behalf of Texas. The PARIS interstate match cross checks social security numbers of active Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF) program, and Medicaid clients as sent by State Public Assistance Agencies (SPAA) for a predetermined month within the match quarter. If matched, PARIS sends the matched records back to the respective SPAA for review and investigation. Although once-a-year participation is mandatory for Medicaid, the data provided to the program is at the discretion of each SPAA. Texas participates for each match quarter. In Texas, the PARIS match meets the legislative requirement for OIG to match with border-states to identify duplicate benefits.

From September 1, 2018 through August 31, 2019, the agency identified, and established overpayment claims for \$858,077 in benefits that had been simultaneously received by individuals in both Texas and another state and in which it was determined that the benefits obtained in Texas should not have been received. During this time, the agency also identified and established overpayment claims for \$694,659 in benefits received by individuals who were ineligible because of incarceration.
